1. Should focus more on core subjects & specialization in depth.
2. Syllabus content is too much reduce given syllabus 20 to 30 % of syllabus according to NEP. Even syllabus should be from general to particular. According to me syllabus is too much time which is given is very less we can't complete with given time..
3. Practical oriented curricular to be designed in the line to enhance analytical skills, critical thinking and decision making, creative writing skills etc.
4. The university curriculum has increased so much this year that it must be corrected by the university. because, this is the university is not able to take active and planned activities for the students in the allotted time. And administratively and Academically we are unable to participate in research activities.
