1) I have had best classmates and motivating teachers . Who makes us comfortable sharing healthy environment.

Few concerns .

I just wish the timings would be moderated so that we can balance other studies or job if practising.

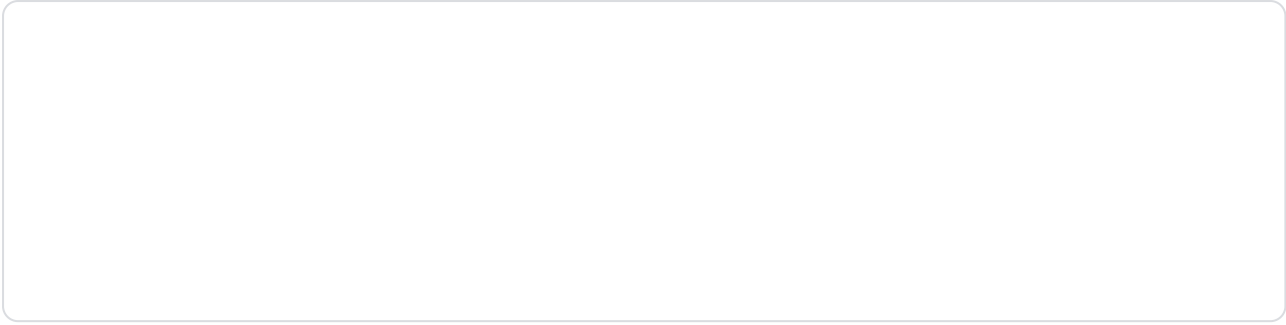

2)Permission to be granted to cover the head just as a part of uniform code like it was before when banned .many of the Muslims opt this institute for education as it holds modesty .

Curriculum should be set as per the current market requirement

My subject is computer, our computer syllabus is more focused on theory but not on practical so my suggestion is Univercity should provide practical exercise for each unit so it helps students to get jobs because company requires practical knowledge and logical thinkers. It's my view sir

Nil

Reduce the contents of the syllabus and new concept should be added to the chapters

Need some more books related to syllabus

No

Still updation is necessary in curriculum

Still the courses have to update according to skill and job oriented courses.
